*"In this world, nothing can be said to be certain, except death and taxes."*

—Benjamin Franklin

The **Global Tax platform** meets the needs of global businesses, and the technical expectations we all have in today's digital world.

Utilizing blockchain technology to verify digital self executing standard contracts, the Global Tax platform interlinks companies worldwide through a **universal financial management system**.

**It is about time the outdated financial management system has gotten an upgrade.**

**Key Features**

Decentralized Identifiers (DID)

Digital Contract

Smart Contract

**Use Cases**

Value Added Tax

Transfer Pricing

Payroll
